PROJECTS

Hemisphere | *Flutter, Dart, Python, Firebase* | 2026 | <https://github.com/SmeetPatil/hemisphere>

Hemisphere is a comprehensive Flutter-based mobile application designed to foster community engagement, enhance local safety, and promote environmental consciousness through AI-driven insights.

Rentsphere | *React, Node.js, Express, PostgreSQL* | 2025 | <https://github.com/SmeetPatil/RentSphere>

Rentsphere is a secure, feature rich, decentralized online tech rental marketplace designed to streamline the rental process, and unifying owners and renters.

Taxkar | *HTML, CSS, Django(Python), SQLite3* | 2025 | <https://github.com/SmeetPatil/taxkar>

TaxKar is a an online website (G2C) that can be used to compute Income tax, GST on items and Foreign Exchange (Forex). It can also be used to retrieve real time live stock market updates, see the historical values and predict its trajectory for up to two months. Integrated with an AI chatbot which is finance scoped only.

PassVault | *Java, SQLite3* | 2024 | <https://github.com/SmeetPatil/PassVault>

This is a full fledged password manager that generates secure passwords and stores them along side relevant fields like username and website. It has provisions for multiple users, and multiple passwords per user.

TechNexus | *HTML, CSS, Node.JS, Express, SQLite3* | 2024 | <https://github.com/SmeetPatil/tech-nexus>

A fully functional e-commerce website that provides users with a seamless shopping experience. The website allows users to browse products, add them to cart and checkout.
